

Rowtech 55 Satusteam™ Applicator Head

The Rowtech 55 applicator head allow for the rapid treatment of weeds along verges, around fences, under trees and in vine rows. This applicator head is suitable for vehicle mounting.

Rowtech 55 has a diameter of 55cm and is set so that it tracks the contours of the ground closely.

The Ultimate Solution in Organic Weed Control

- ✓ Ideal for Blueberries, Vineyards, Orchards and Gravel Edges.
- ✓ Singular and dual arms can be operated with left and right mountings
- ✓ For Use With: SW800, SW900 and SW3800KD.
- ✓ Vertical and horizontal pivoting system tracks terrain and the unique break away system allows the domes to roll gentle around the plant

Rowtech 55

The bearing case is machined from 5000 series aluminium providing a rugged mounting point to the link arm assembly.

The conical hood is fabricated of a lightweight insulated aluminium sandwich material that, together with the interchangeable bottom brushes, help retain the heat under the hood for maximum weed killing productivity.

- 
Specialised steam delivery nozzles for optimum spread and saturation
- 
Insulated, robust domes
- 
Replaceable nylon brush insulating dome skirt
- 
Arms are constructed from rugged, heavy gauge, powder coated steel

ROWTECH 55			Flow Rate: 4 L/min to 19 L/min (1 gal/min to 5 gal/min)		
			Weight: 3.5 Kg (8 Pound)
